

Spring 2022

Project-based Japanese (Intermediate) (Nishimata Miyuki)

We live in a complex world in which we constantly face problems to be solved. As a world citizen, we have a shared responsibility to strive to make our world better. In this course, we will examine and discuss various contemporary social issues. Students will also plan and conduct a workshop on a social issue of their choice. All activities will be conducted in Japanese in order to develop Japanese language skills.
